Rain barrel purchase and installation	\$ 300.00
Until barrel installation, create a reimbursement for neighbors' use of water for garden	\$ 100.00

Are you applying to any other organizations for additional funding?

No

If the above answer is yes, provide the source and amount of other funds and if the Neighborhood Association is already in possession of those funds.

Describe how the ARP funding will impact the Neighborhood association.

All of our efforts with our APR funding will help connect our neighbors to other neighbors, by way of our activities and celebrations. It will also ensure the continued beautification of Kenmore as well. This through a focus of our KNA entry points, like the substation and our park, but also through trees within our neighborhood. We have a lot of walkers in KNA, so we love to ensure we have a beautiful neighborhood for these walks.

How will the project(s) be measured and evaluated?

We will measure by number of trees and flowers we are able to plant, but also by those that attend our several KNA meeting and gatherings highlighted in our application.
